PROFESSIONAL SUMMARY

Full Stack Developer with 4 years of experience building modern web applications using React and Next.js. Experienced in developing CRM systems, dashboards, e-commerce platforms, blogs, and productivity tools. Strong understanding of component-based architecture, responsive UI development, state management, and deployment workflows. Comfortable collaborating with startup teams and rapidly turning requirements into working products. Also skilled in AI-assisted development workflows, using tools like Claude to accelerate building, debugging, and shipping.

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Development: Component Architecture, State Management, Responsive Design, Dashboard Development, CRM Interfaces, REST APIs

Tools: Git, GitHub, Vercel

Databases: PostgreSQL, MongoDB

AI Skills: Claude (Anthropic), AI-Assisted Development Workflows, Prompt Engineering, AI Fluency

FEATURED PROJECTS

CRM Contacts Management System (Logic Q1) (Collaborator)

Built a CRM contacts module with search, filtering, CRUD operations, CSV import/export, duplicate detection, validation, responsive dashboard layout, and reusable React components. Developed with the Nebula Technology Labs team.

[Live Site](#)

OTC Store — *Next.js, TypeScript, MongoDB*

Developed a modern e-commerce application with product browsing, cart, and admin panel, deployed to production.

[GitHub](#) | [Live Demo](#)

Task Management Platform — *React, Node.js, Express, Socket.io*

Created a real-time task management application with WebSocket-based updates and multi-user state handling.

[GitHub](#) | [Live Demo](#)

DevBlog — *Next.js, Tailwind CSS, MDX, Vercel*

Built a content publishing platform focused on developer-oriented articles with a fast, responsive reading experience.

EXPERIENCE

Independent Full Stack Developer 2022 – Present · 4 years

- Designed, developed, and deployed multiple web applications from concept to production.
- Built CRM-style dashboards and management interfaces using React.
- Implemented reusable UI components and responsive layouts.
- Managed source control, deployments, and project delivery using GitHub and Vercel.
- Worked directly with startup founders to gather requirements and deliver frontend solutions.
- Used AI-assisted workflows (including Claude) to speed up development, debugging, and code review.

CERTIFICATIONS

- Claude 101 — Anthropic

- AI Fluency — Anthropic
- Full Stack Development — Udacity
- Web Development — satr.codes
- React.js Certificate — Manara.tech

EDUCATION

High School Student (Grade 12) — Expected Graduation: 2027

Future focus: Computer Science / Software Engineering
